Lesson Plan 7-6 The Natural Base, e pp. 531–536 Day Objectives Use the number e to write and graph exponential functions situations. Solve equations and problems involving e or natural TEKS 2A.4.A: Algebra and geometry: identify and sketch exponential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function for the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the componential (f(x) = a ^x) and logarithmic (f(x) = log _a x) function file in the
Objectives Use the number e to write and graph exponential functions. Solve equations and problems involving e or natural TEKS 2A.4.A: Algebra and geometry: identify and sketch exponential (f(x) = a ^x) and logarithmic (f(x) = log _a x) functions for the problems involving e or natural Pacing 45-minute Classes: 1 day
